

COMPANY PROFILE

www.smirgroup.com

ABOUT US

Smir Group is a multinational company operating in the fields of construction, supply chain, logistics and Real Estate in Eurasia, Europe and the Mena Regions. All these services are offered by Smir Group.

Smir Group's global headquarters is in Turkey. It also has regional headquarters and offices in Istanbul, Kusadasi, Kuwait and Germany. Our aim is to bring superior quality products to the market and increase the satisfaction of our customers.

OUR VISION

01

Smir Group companies aim to create a strong and cohesive group based on a strong and knowledge-based infrastructure by using an elite and skilled workforce. We believe that Smir Group companies have the power to compete with the world's largest companies in this field.

02

Smir Group has based its business strategies on being “first and best in the CIS and MENA regions”. We believe that the planned activities and the use of human resources with their unique expertise give us the ability to be the best in the world.

OUR MISSION

01 To provide choice and diversity to people with high quality products while supporting innovation and employment.

02 As Smir Group, we believe that having qualified employees and hardware infrastructures on the one hand and well-defined international strategies on the other hand gives us the ability to always be the best and the first. This belief is to ensure that the current and hidden potentials in this group are now more accessible than ever, making it a reliable group of companies.

OUR SERVICES

CONSTRUCTION

Smir Group cooperated with an internationally renowned company in the country and tried to expand its services outside of Turkey as well. We partnered with D.M.D.A Darwish & Mariano Design Associates, a Kuwait-based general contracting and designing agency, with all kinds of construction styles and services. Since its inception, the company has managed to become one of the country's leading general contractors offering a range of services. The aim of Smir Group is to offer the highest quality to its customers in the field of construction. With a permanent workforce of 10 engineers, technicians and professionals, we have mobilized up to 40 construction workers at our facilities using the latest international standards of excellence in both quality and performance.

REAL ESTATE

Smir&Co is part of the Smir Group, which has been operating in real estate and property management with newly built and unplanned properties for our clients since 2016. We offer all properties directly from the owner to our clients. Smir Group has an experienced team of professionals in their fields of construction and investment in the region.

OUR SERVICES

SUPPLY CHAIN

Smir Group is an innovative, international construction materials supplier with regional portfolios, providing high-quality materials. Our experience, professionalism, commitment and dedication have driven our successful transformation. The continuous trust of our customers helped us to become who we are today. Our core values of integrity, responsibility, transparency, flexibility and innovation have sustained many long-term business relationships over our active years. Our extensive product range requires modern, specialized and efficient services from warehouses, transportations to customer service. We are highly selective in working with manufacturers that only produce premium quality products and ensure the best deal for each of our customers. Product quality assurance and safe working conditions are nevertheless vital to our corporate business ethics.

LOGISTICS

Business logistics involves many strategic aspects in addition to standard logistics activities that include transporting, warehousing, material handling, packaging, distribution processing, and logistics information processing. To meet global logistics needs, we focus on providing strategic solutions (planning, forecast, management, R&D, system development) in every aspect of logistics from procurement of materials and products to the production and sales throughout your supply chain and demand chain. Our logistic division will reexamine your logistics from the customer's perspective and help you optimize your operations.
